OBJECTIVE Seeking a challenging and rewarding job role where I can apply my knowledge, experience, and skills. I aim to make valuable contributions to the organization's goal and objectives.

- EXPERIENCE** **Coordinator**
Saudi Public Transport Company, Dammam Saudi Arabia
May 6, 2013 to August 2023
- Responsible for creating and managing work requests and work orders using the Oracle Enterprise Resource Planning (ERP) system.
 - Performed data analysis on the reports generated from the Oracle Enterprise Resource Planning (ERP) system to measure and evaluate the key performance indicators (KPIs) of field service technicians, inventory management, and out of service fleets.
 - Trained new users on using Oracle Enterprise Resource Planning (ERP) system and provided ongoing support and guidance.
 - Collaborated with end users and recommended improvements of Oracle Enterprise Resource Planning (ERP) system to senior management based on user feedback and data analysis.

EDUCATION **Bachelor of Science in Computer Science**
Notre Dame of Dadiangas University, Philippines
June 2006 to March 2011

PERSONAL PROJECTS **Asset Maintenance System**
A system designed to optimize the asset's performance by ensuring all assets are well maintained. The system has an inventory and spare part management module to ensure the availability of spare parts needed. It has an employee management module to help improve workforce productivity.
Skills: Python, Django REST, JavaScript, ReactJS, Ant Design UI, HTML, CSS
